

Using the Calendar to find direction to an event

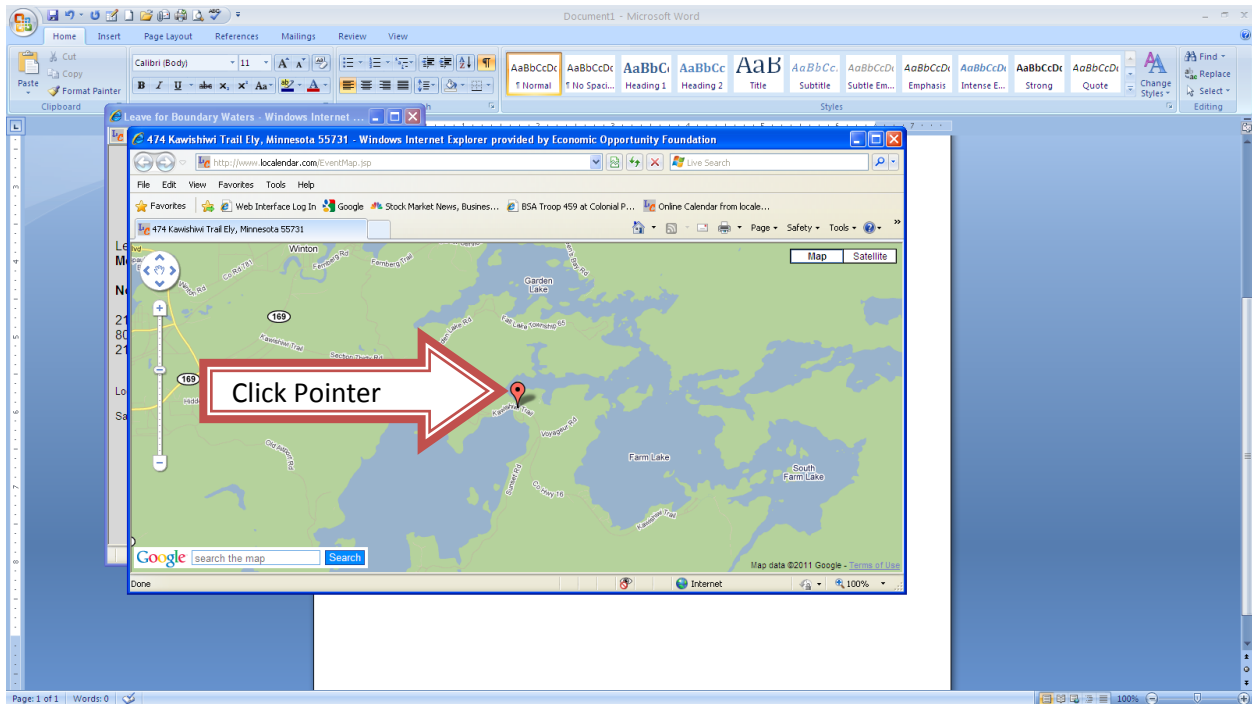

To get directions to a campout or event find the date of the event and click on the event.

A dialog box will pop up and show the event details and a location

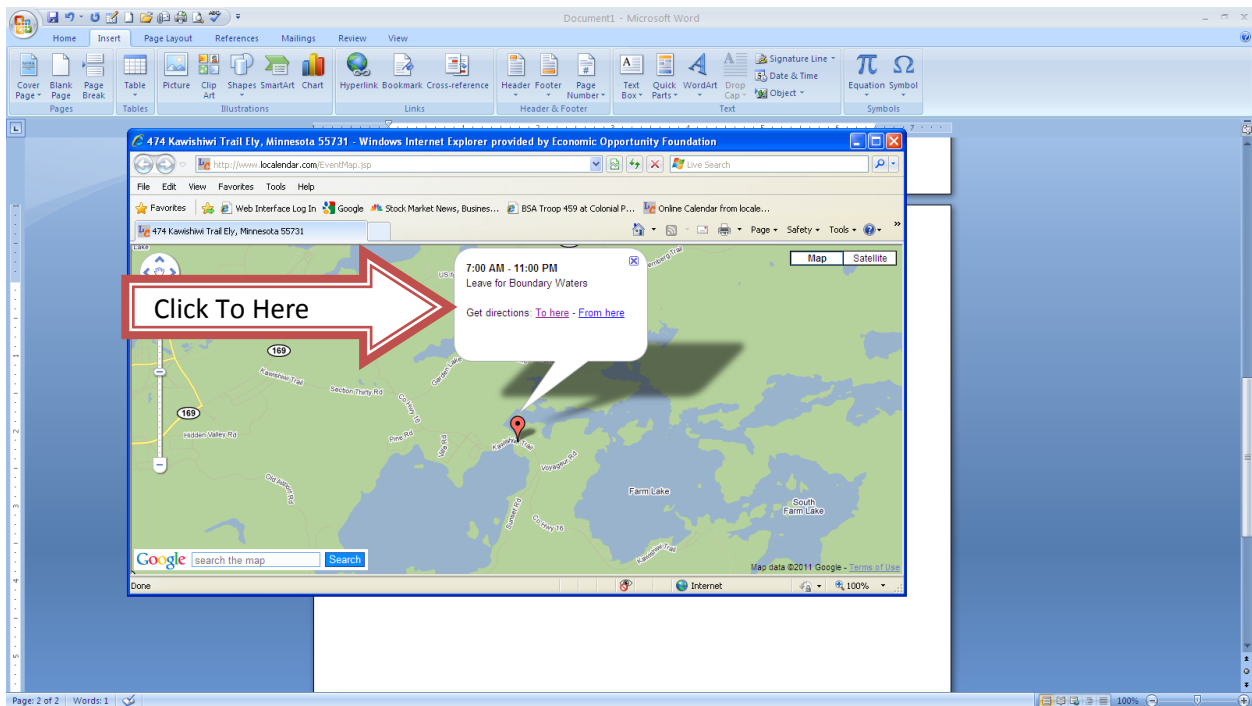

Click on the location. This will take you to a Google map screen.

Click on the pointer.

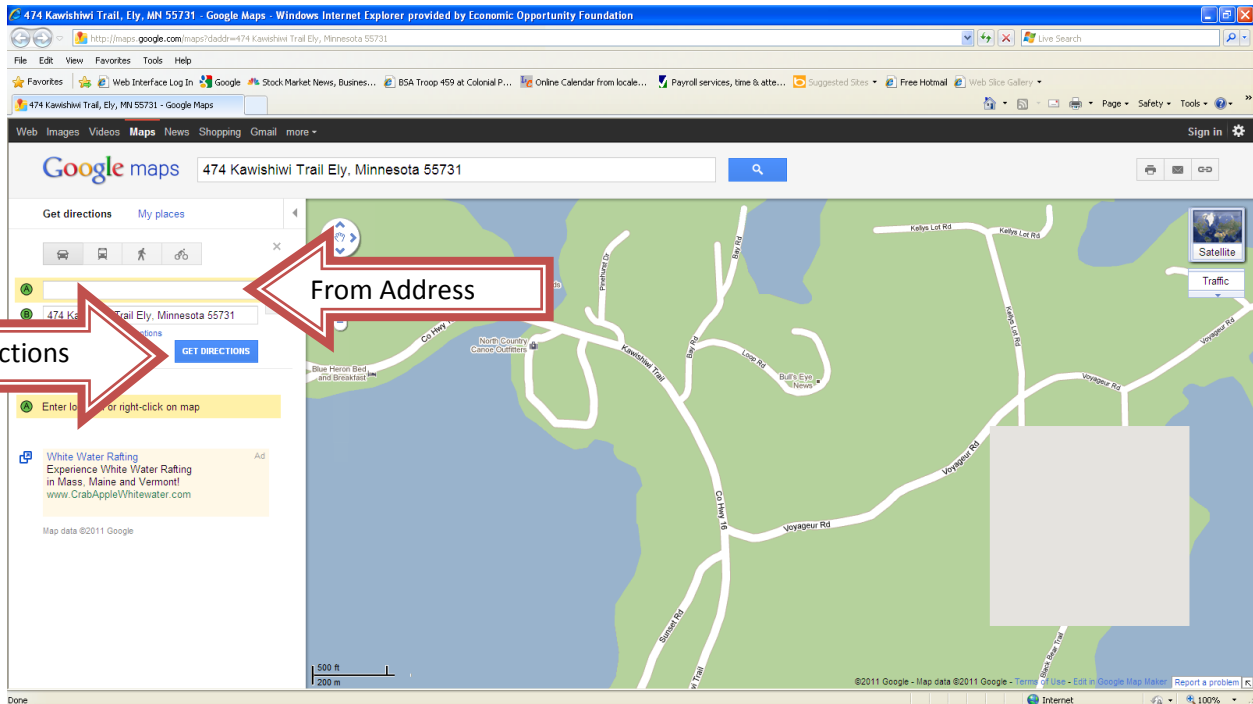

A balloon will popup to get direction to or from the event location.

Click on the "Get Direction To here."

Type in the address you want to start/leave from and click on the Get Directions button.

The Get Directions will result in the production of the map below.
